

Getting Started With Eloheh Healthcare Services

Welcome to Eloheh Healthcare Solutions!

We offer compassionate, patient-first care that supports your health at home. This guide outlines the services we provide and how to access them.

Core Services We Offer

- In-home care support: Our care professionals assist with everyday activities, mobility, personal care, and wellness monitoring in the comfort of the patient's home.
- Telehealth setup and training: We guide patients and caregivers through video setup, medical equipment usage, and virtual check-ins, ensuring everyone feels comfortable and confident with technology.
- Equipment delivery and setup: Not only do we deliver durable medical equipment, but we also show you how to use it safely and effectively, with ongoing support and check-ins.
- Medication organization and education: Our team helps organize prescriptions, set reminders, and educate families on proper usage, potential side effects, and refill schedules.
- Caregiver coaching: We train family members and caregivers to provide better care, manage stress, and coordinate with healthcare professionals.
- 24/7 customer service: You're never on your own. Our support team is always just one call or email away, no matter the time or day.

How to Get Started

1. Contact our support team via email or web form
2. Schedule a free care consultation
3. Receive a customized service plan
4. Begin in-home or virtual service setup
5. Access ongoing support anytime

What You Can Expect
